

Winter Guidelines for Playground

All the guidelines for playground equipment apply year round. There are some additional rules that are put into place during snow and icy conditions.

Grade Level Restrictions:

- Grades EC-5th must have boots and snow pants to play in or on the snow banks.
- Paraprofessionals and teachers have the authority to request students who are not prepared for weather conditions to retrieve needed clothing from the nurse's office or for students to stand indoors for the recess period.

For Safety:

- Ice patches should be avoided and are off limits for play.
- Ice and snow will remain on the ground.
- King of the Mountain or other pushing games will not be played on the snow banks.
- Play should occur on the school side of all snow hills.
- The hill next to the Health Room is OFF LIMITS for playing.

Snow Sculptures:

- Snow sculptures can be built, but not destroyed.
- All students can build on the structures.
- Snow sculptures are the result of teamwork and cooperation by the students at Burleigh.
- Respect for others' hard work will be shown.
